MISSION BELL GARDENS

2778 WEST 5600 SOUTH

ROY, UTAH

One mile west of the American Food Store

THIS IS YOUR INVITATION to visit Mission Bell Gardens. We are growing approximately 600 varieties of iris, including many of the newer introductions. Peak bloom is usually during the last half of May.

Our new seedlings made exceptional growth last summer, and should give a high percentage of 1st year bloom. In addition, our Guest beds are filled with selections from more than thirty hybridizers, representing twelve states!

VISITING A. I. S. JUDGES, please ask for Brochure listing the name, or number, and location of all guest iris.

We wish to take this opportunity to thank our friends for their splendid orders. Special thanks are due to those who sent notes of appreciation and satisfaction. With all good wishes for a beautiful year of happiness and fulfillment.

Sincerely yours,

Melba and Jim Hamblen

JOIN THE AMERICAN IRIS SOCIETY

For additional iris pleasure, we urge you to join the American Iris Society. You will receive four valuable, illustrated Bulletins each year. The Bulletins contain information on iris culture. New varieties are described and their performance in various areas is commented upon. Through the "Robins" you will make many new friends. Dues are only \$5.00, family membership \$6.00.

You may mail your check or money order to The American Iris Society, 2237 Tower Grove Blvd., St. Louis 10, Missouri. New members—make your check to the American Iris Society and include it with your order. We will send it in for you and will allow you to select a \$5.00 iris as a premium.

1961 INTRODUCTIONS

ORANGE PARADE (Hamblen) Early to Late. 38 inches. (Pink Tower x Radiation) x Pink Formal) x (Sib to Glittering Amber) Marigold orange standards, Spanish orange falls, red-orange beard; creating a vivid color effect. Petals are wide, with moderate ruffling and a bit of lace; closed standards, semi-flaring falls. Tall, well branched and vigorous. H.C. 1958, 1959. No. H5-12. Limited stock.....Net \$25.00

BORDER IRIS

TULARE (Pronounced Tulary) (Hamblen) Early to Midseason. 24 inches. (Ruffled Organdy x Rosedale) x Tell's 56-33: (Yellow Dresden x Golden Flash). This is a second generation Border iris, from a small yellow sib to Teenage and the yellow sister of Saucy Peach. The color is intense golden yellow; beard is reddish apricot. Flowers are wide petaled with flaring, ruffled form. Substance and growing habits are excellent. H.C. '60. No. H7-715.00

Flowers are God's thoughts of beauty, taking form to gladden mortal gaze; —bright gems of earth, in which, perchance, we see what Eden was—What Paradise might be! — Anon.

FOR HYBRIDIZERS: We are releasing a limited number of Valimar's blue sister seedling, H53-27K (Helen McGregor x Radiation) x Palomino. Medium blue, with light yellow beard. Lightly ruffled petals, standards closed, falls flaring. Stalks are tall and well branched. Crossed to numerous pinks and pastel blends, H53-27K has produced many interesting seedlings 5.00

YUM-YUM (Albright '56) Light salmon tinted peach with round flaring falls of excellent substance.	3.00

IRIS AWARDS

H. C. (High Commendation) is an award to an iris seedling, either under number or name, not introduced at the time of judging.

H. M. (Honorable Mention) is an award to an iris which has been officially registered and introduced.

A. M. (Award of Merit) is an award to an iris that has won an Honorable Mention not less than two or more than five years prior to the current season. There are twelve A. M.'s awarded each year.

D. M. (Dykes Medal) is the highest award an iris may receive. Only one D. M. is awarded each year and in order to be eligible, an iris must have first won an A. M. during the previous four years.

MINIATURE DWARF BEARDED

(Height 2" or 3" up to 10")

ABLAZE (Welch '56) Fiery bright little variegata. Bright orange beard. H.M. '56	1.50

violet-red bi-tone, falls darker than
standards. Petals edged brown50

WIDGET (Williamson '43) Whimsical
baby plicata. Blue-violet markings on
clean white.50

IRIS PLANTING AND CULTURAL DIRECTIONS

WHEN TO PLANT. For best results plant June through September. Early planting establishes the new Iris plants before winter. This is the time to reset clumps of Iris that are crowded, generally clumps 3 to 4 years old.

WHERE TO PLANT. The ideal location for your Iris is a sunny, well drained position. Sunshine at a minimum half days; Iris will not do well in the deep shade. No water should stand in your Iris beds. Raise beds slightly above the level of your garden paths if necessary.

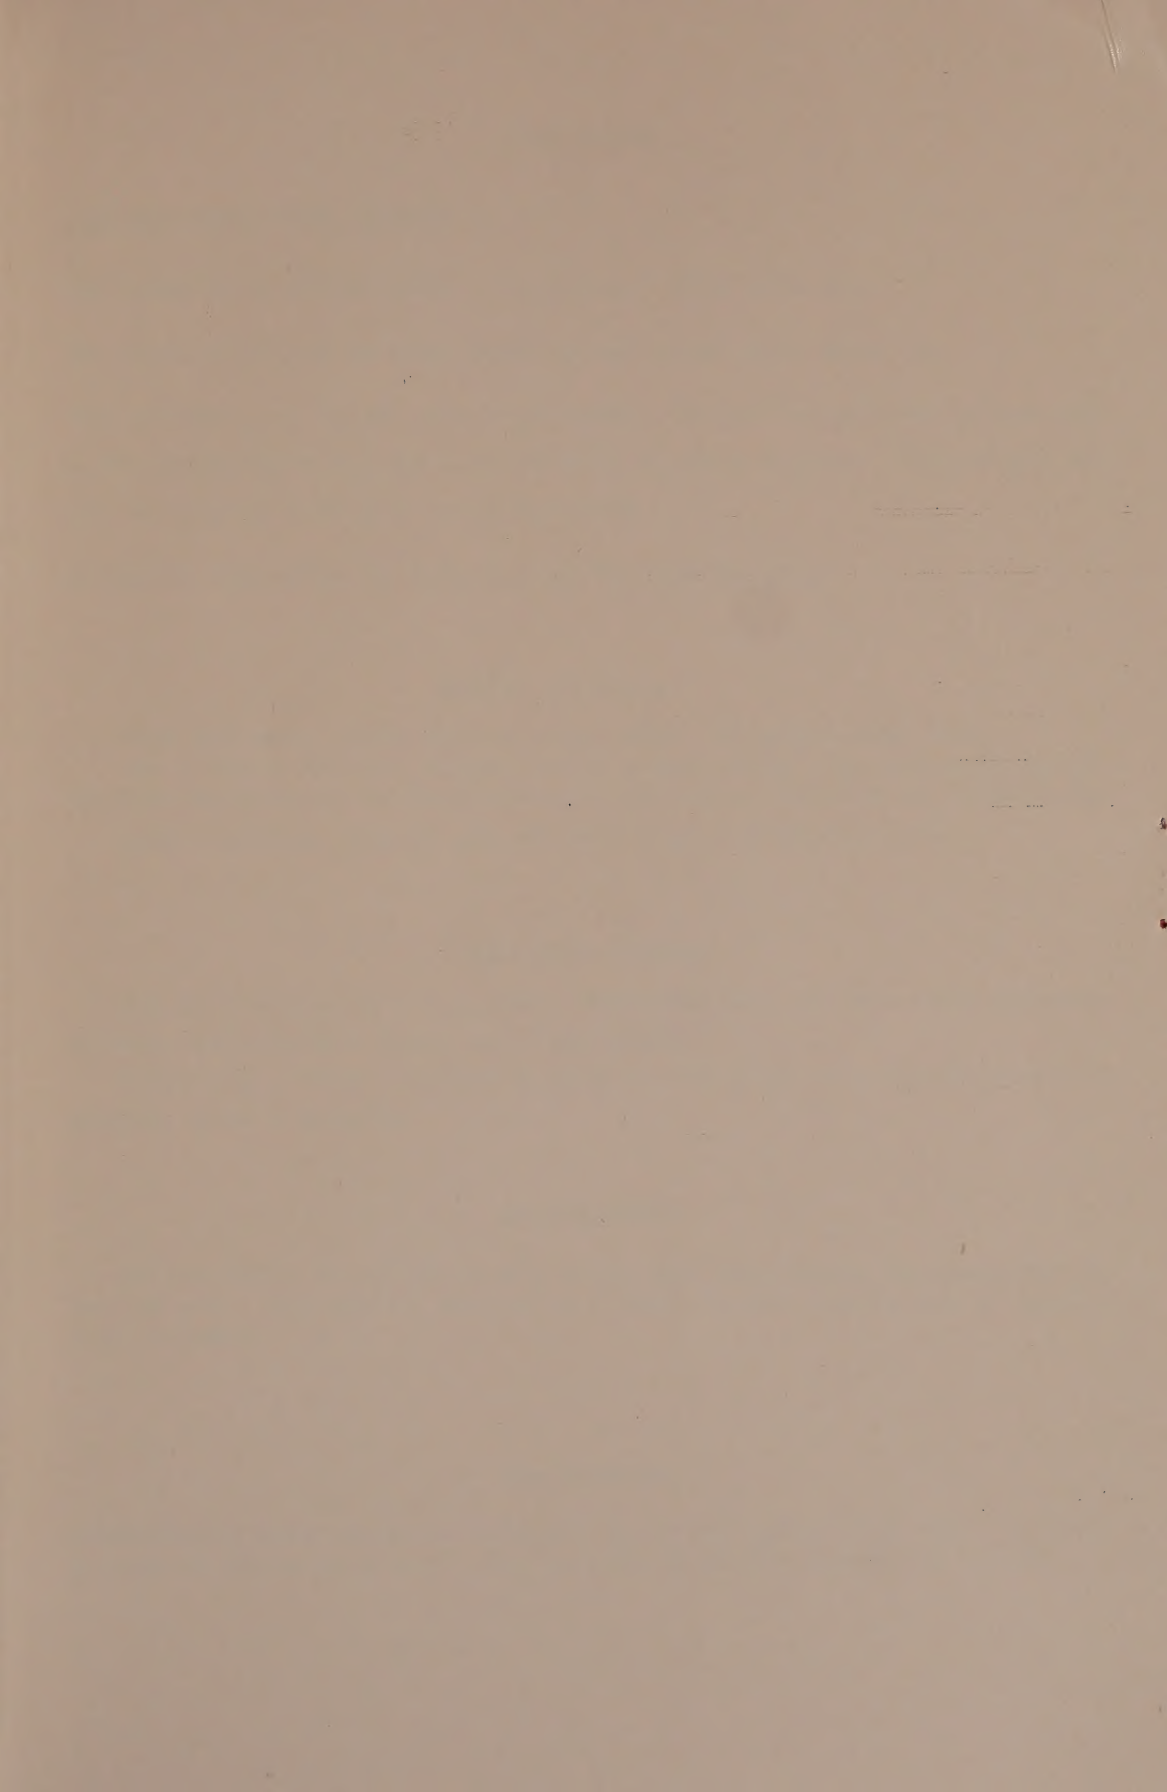

DEPTH TO PLANT. Place your rhizomes just below the surface of the ground with the roots well spread out underneath so that rhizome is within reach of the warmth of the sun's rays while the roots beneath are in moist (not soggy) soil. Be sure to firm the soil tightly around each rhizome when planting. Follow ordinary good garden practice of watering and settling soil on newly set plants, of course.

DISTANCE APART. This will depend on your particular plans. Generally iris are planted from 14" to 2' apart. If you desire immediate clump effect plant 8" apart in groups of 3 or more of one variety. You may have to divide and separate your plantings more often, but you will have a wonderful splash of color sooner than you would if you planted only rhizome of one variety.

FERTILIZATION. Iris will thrive without feeding but will respond to its application. In the matter of fertilizers, garden sense should be used in liberal quantity. In the preparation of your new Iris bed, spade in a good application of compost below the roots. Then an application of a well balanced fertilizer applied as a top dressing dusted around and in between the plants in early spring or very late fall is desirable. Steamed bone meal and super-phosphate are fine top dressing materials.

CULTIVATING. Do it shallowly. Iris feeding roots are very near the surface. Keep your Iris free of weeds and do not allow neighboring plants to encroach upon them. Remember, they should have sunlight right down to the rhizome. Remove the outer leaves as they begin to brown. At all times keep litter, old Iris leaves, grasses, etc., away from the rhizomes. Clean cultivation is the finest precaution for Iris troubles.

1961 OFFER

CHOOSE YOUR OWN EXTRAS —

On orders up to \$10.00 select an additional 25% extra iris.

On orders of \$10.00 or more, select an additional 50% extra iris.

NET varieties may not be selected as extras. To your list of extras please add a few alternates as we are short of stock on some varieties. Special gift iris will be selected from your list of alternates.

VARIETIES with prices not listed are not for sale this year.

TERMS OF SALE

Cash with order, check, draft or money order. No orders under \$5.00.

Due to Parcel Post rate increase, and to partially offset other constantly increasing costs, hereafter we will charge 35c on all orders as a "Handling and Packing" fee.

Local Customers: 25% of sale will hold order until digging time.

SHIPPING DATES

Iris will be shipped from June 20th to September 15th. We have found that early planting produces more bloom and larger plants.

Orders will be filled in rotation; however, we will comply with requests for special shipping dates if possible.

GUARANTEE

GUARANTEE — All Iris true to name, free from disease and guaranteed to live and grow. Our Iris are replanted each year—thereby assuring you of healthy, husky rhizomes.

WHOLESALE

WHOLESALE prices quoted to authorized dealers and garden clubs where the order is large enough for us to do so. Send us a list of varieties and amount wanted.
